

## **EZ Plan instructions**

To use the EZ Plan you need to fill out the empty boxes on each page, if you need more space to add more words, you can click on the + (plus) button which will give you more empty boxes or in some cases another blank page to work with.

There are guidelines on each page to direct you when you are filling out the pages.

The maximum amount of pages for any individual EZ Plan is 30, but if you need more, you can create a second EZ Plan, name it after the person, add the words "(continued)" and carry on.

If you have any technical difficulties or questions please contact the creator of this EZ Plan through [info@familiesleadingplanning.co.uk](mailto:info@familiesleadingplanning.co.uk) and make the subject of the email "EZ Plan Query".
